Table 1 - 2:
Source: California Statewide Database Public Law (P.L.) 94-171 and US Census Bureau Website, enacted by Congress in December 1975, requires the Census Bureau to provide states the opportunity to identify the small area geography for which they need data in order to conduct legislative redistricting.

For more information about Public Law (P.L.) 94-171:
<https://www.census.gov/programs-surveys/decennial-census/about/rdo/summary-files.html>

Table 3 - 6:
Source: Statewide Database 2015-2019 Citizen Voting Age Population, adjusted to reflect reallocated incarcerated persons, on 2020 Census Blocks.

The original data source for the Citizen Voting Age Population (CVAP) is the American Community Survey (ACS). The ACS is an ongoing survey by the U.S. Census Bureau sent to approximately 250,000 households each month. The ACS estimates used to develop these data were collected from January 1, 2015 to December 31, 2019 utilizing the 2010 Census block groups, which were disaggregated to the 2020 Census blocks by the Statewide Database.

Because this is a special tabulation of data and not part of the standard data products shown on the Census Bureau's data.census.gov website, these estimates are rounded. Therefore, individual categories may not exactly add to the total.

For example, the sum of each of the race groups for non-Hispanics may not be the same as the estimate given for non-Hispanics. These estimates will not match counts from the 2020 Census.

For more information about CVAP products, visit <https://www.census.gov/programs-surveys/decennial-census/about/voting-rights/cvab.html> and https://www2.census.gov/programs-surveys/decennial-census/about/technical-documentation/special-tabulation/CVAP_2015-2019_ACS_documentation.pdf
